

WANTS TO SHUT OUT W. J. BRYAN

Judge Alton B. Parker Urges Southern Democrats to Take Leadership of Party.

SPEECH AT CHARLOTTE, S. C.

SOME HIGHLY COMPLIMENTARY REMARKS.

Charlotte, N. C., March 16.—Judge Alton B. Parker of New York tonight, in an address before the Manufacturers' club of this city, urged southern Democrats to take the leadership of the party. Judge Parker said, in part:

"In 1886 you tried Nebraska, and since that day no old Democratic northern state has acceded one of our party to the United States senate, and in none has there been a friendly governor. All the Democratic training schools of the north—elementary, intermediate and higher—were closed and have remained so. The party paralysis was complete and almost fatal. In 1904, hoping to cure or palliate it, you advised returning again to New York for your candidate, only to meet the worst defeat in our party's history."

Experience of Twelve Years.

"It is now nearly twelve years since any man professing devotion to your party has been chosen in the nation or in any other Democratic northern state to fill an important executive office. At the last election perhaps eight or ten of the voters then under the influence of our party, and today the party organizations are lifeless, their one-time leaders are dead or have abdicated, or worse, have become Republicans, while in more than one state the threat hangs over them that they may become the victims of the spoiler or the corruptionist."

Should Not Delay.

"When such conditions confront you, why should you persist any longer? While the Democrats of Nebraska and New York and other northern states have brought forth their most able and energetic men, and while they are threatening to give themselves and the party over to further destruction—should you not assist your friendly government? You have borne the heat and burden of the day. Your statesmen have demonstrated their ability not only to take care of the interests of their states and their section, but they have been the only dam against aggression at home and the threat of discrediting abroad. Among them are men with the knowledge, experience, honesty and courage to represent their fellow citizens as far as the national organization is concerned, this is the end of Dolan's career. Only the pieces President Mitchell and Secretary W. B. Wilson prevented the expulsion of Dolan from the organization. Dolan and his supporters claim something of a victory in defeat from the fact that he was seated as a delegate in the convention. The two actions followed immediately upon the passing of the resolution of censure. As far as the national organization is concerned, this is the end of Dolan's career. Only the pieces President Mitchell and Secretary W. B. Wilson prevented the expulsion of Dolan from the organization. Dolan and his supporters claim something of a victory in defeat from the fact that he was seated as a delegate in the convention. The two actions followed immediately upon the passing of the resolution of censure. As far as the national organization is concerned, this is the end of Dolan's career."

Expresses Gratitude.

"I, myself, placed at the front for a time, have every reason to be grateful to Democrats everywhere, especially to those of the south, for turning against me. I have no regrets for the past; but no one, I think, can know better than I how futile our effort has been in the past and how unpromising the outlook is for the future unless we throw aside isms and grasp the great moral issues which so clearly are perceived by the people. The time has come when the really effective Democrats of the country should recognize the manner in which she themselves should no longer hesitate, decline or refuse to seek or to accept their share in the work which is their duty for well done."

VICTIM OF AWFUL CRUELTY

Experience of Mile, Ismailovich After Her Attempt to Kill Governor of Minsk.

St. Petersburg, March 16.—The case of the daughter of General Ismailovich, who was condemned to death March 2, her sentence later being commuted to imprisonment for life, has created a sensation similar to that caused by that of Mile, Spiridonova, the 17-year-old girl who shot M. Luzhnyffsky, chief of the secret police of Tambov. The case of Mile, Ismailovich, is described in the manner in which she had been treated. Mile Ismailovich has also succeeded in sending out a letter from her prison. It was published today and describes her horrible treatment after the attempt to kill the governor of Minsk, as a result of which her accomplices, Ivan Kulkonoff, was executed. Mile Ismailovich says the police kicked her into insensibility, and subsequently at the police station tore off her clothes, subjected her to indignities, beat and cursed her, spat in her face and struck her with such force on the side of her head that an ear-drum was broken. A local paper today printed statistics showing that 297 executions occurred in Russia during the month of January.

MUCH WATER FOR FARMERS

Weather Report Shows That Snow Is Packed Deep in the Mountains.

Plenty of water for the farmers will be available next season, according to the monthly report for Utah of the weather bureau. The report says:

"Excepting over the eastern part of the state, where locally little or no precipitation occurred, the amount of snowfall throughout the state during the month was decidedly above the average, particularly over the northern counties. During the fore part of the month dry and cold weather prevailed, but, at times, an almost entire absence of air movement. There was, in consequence little melting, and evaporation was at a minimum, factors that were of great importance in conserving the supply of snow already in the mountains and canyons. The snow had acquired the solidity of ice through the gradual settling caused by its own weight, and served as a splendid foundation for the frequent snows that came subsequently with the marked changes in stormy conditions that began about the middle of the second decade. During this period, which continued during the remainder of the month, storms were frequent and sometimes heavy, with high winds that drifted the snow considerably. Owing to the higher temperatures that obtained during the latter part of the month the snow was generally very moist, interspersed at times with rain and sleet. The rain, while assisting considerably in the packing process, also materially aided the melting of the snow, which, in consequence, rapidly disappeared from the fields in the lower valleys. A serious flow-off was, however, prevented by the favorable condition of the soil, which was free from frost and readily absorbed the moisture."

Experience of Twelve Years.

"It is now nearly twelve years since any man professing devotion to your party has been chosen in the nation or in any other Democratic northern state to fill an important executive office. At the last election perhaps eight or ten of the voters then under the influence of our party, and today the party organizations are lifeless, their one-time leaders are dead or have abdicated, or worse, have become Republicans, while in more than one state the threat hangs over them that they may become the victims of the spoiler or the corruptionist."

ARE WAITED FOR BURGLARY

Three Men Arrested, Then Set Free, Are Believed to Be Nevada Burglars.

A. J. Wilson, G. Thomas and Thomas Fitzgerald, who were arrested on Tuesday evening at the point of a gun by Officer M. Malone, were released on Thursday from custody. The reason given was that the city would not furnish evidence sufficient to convict them on a vagrancy charge. Shortly after 3 o'clock yesterday morning the whole town was turned upside down in an effort to locate the men who, it was believed, had robbed a store at Carlin, Neb. But the birds had flown upon being given their liberty and at the present time their whereabouts is unknown.

The men were arrested by Officer Malone upon a description furnished him by a man to whom one of the three had sold some jewelry. Their actions created suspicion and one of them was taken to the station with an automatic gun. Officer Malone took no chances with them and when one of the three did not obey his orders to "throw up," just as quickly as the officer thought he should, a good stout rap on the side of the head brought the fellow to time and the arrest was effected before any guns could be brought into play. When the men were searched at the police station, a "swag" was turned up. A fair sized business house was taken from their persons. At first it was supposed that the goods were secured from the Komada & Co. store, which was robbed on Sunday morning, but an inspection of it showed that it was not in any way with the Komada stuff. An effort was then made on the part of the police to find out where the goods were taken. In the meantime the men were taken before Judge J. D. Murphy upon the record of the men taken by a city attorney,
